Re:

FCC Form 481 - High-Cost Support Information and Low-Income Support Information Pursuant to 47 C.F.R. §§ 54.313(a)-(g) and 54.422(a)

Dear Secretary Dortch:

Pursuant to 47 C.F.R. §§ 54.313(a)-(g) and 54.422(a) of the Federal Communication Commission's regulations, please find enclosed the FCC Form 481 for Nushagak Electric and Telephone Cooperative, Inc. This form was also filed at the Regulatory Commission of Alaska (RCA) and USAC.

Nushagak Electric and Telephone Cooperative, Inc. seeks confidential treatment for its financial information pursuant to the Protective Order, Connect America Fund, et al., WC Docket No. 10-90 et al., (Nov. 16, 2012). A redacted version is also being filed this date via the FCC's Electronic Comment Filing System. In addition, attached is a letter requesting confidential treatment under 47 C.F.R. §§ 0.457 and 0.459 of the initial § 54.202(a) Five-Year Service Quality Improvement Plan.

Please do not hesitate to contact me if you have any questions or I may be of any assistance.

Sincerely,

DYKEMA GOSSETTPLLC

Re: FCC Form 481 - High-Cost Support Information and Low-Income Support Information Pursuant to 47 C.F.R. §§ 54.313(a)-(g) and 54.422(a)

Dear Ms. Dortch:

Pursuant to the Protective Order in Connect America Fund, et al., WC Docket No. 10-90 et al. (Nov. 16, 2012) and 47 C.F.R. §§ 0.457 and 0.459, Nushagak Electric and Telephone Cooperative, Inc., by its attorneys, hereby requests that certain materials and information be withheld from public inspection. Specifically, Nushagak Electric and Telephone Cooperative, Inc. request confidential treatment of the Five-Year Service Quality Improvement Plan (the "Plan") attached to its Form 481 filing.

In support of its request for confidential treatment and pursuant to the requirements under 47 C.F.R. § 0.459(b), Nushagak Electric and Telephone Cooperative, Inc. states the following:

1. Identification of the specific information for which confidential treatment is sought.

Nushagak Electric and Telephone Cooperative, Inc. seeks confidential treatment of the Plan attached to the Form 481 filing accompanying this letter. The Plan contains sensitive financial information about Nushagak Electric and Telephone Cooperative, Inc. as well as information about Nushagak Electric and Telephone Cooperative, Inc.'s projected network improvements and upgrades for voice and broadband services during the period from 2015 through 2019.

2. Identification of the Commission proceeding in which the information was submitted or description of the circumstances giving rise to the submission.

The documents are being submitted as part of the annual Eligible Telecommunications Carrier ("ETC") Report (Form 481) mandated by 47 C.F.R. § 54.313.

Dykema

Ms. Marlene Dortch, Secretary July 1, 2014 Page 2

3. Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged.

The data described is highly confidential and sensitive commercial and financial information which constitutes trade secrets or sensitive commercial and financial information that would "customarily be guarded from competitors" and is therefore exempted from mandatory disclosure under FOIA Exemption 4 and 47 C.F.R. § 0.457(d).²

4. Explanation of the degree to which the information concerns a service that is subject to competition.

The Plan relates to voice and broadband services provided by Nushagak Electric and Telephone Cooperative, Inc. that are subject to competition from competitive local exchange carriers, cable television system operators, electric power utilities, fixed and mobile wireless service providers, and/or satellite carriers.

Specifically, the Plan sets forth in detail the services provided by Nushagak Electric and Telephone Cooperative, Inc. over its existing network including location of customers, as well as planned network improvement and maintenance for 2015 through 2019, including project dates, populations impacted by the improvements and upgrades, and projected capital costs associated with maintaining the network. This information is competitively sensitive information related to the company's existing network and planned upgrades and maintenance, and would benefit Nushagak Electric and Telephone Cooperative, Inc.'s competitors if they were able to have access to this information.

5. Explanation of how disclosure of the information could result in substantial competitive harm.

Disclosure of the Plan is likely to result in substantial competitive harm to Nushagak Electric and Telephone Cooperative, Inc. because the Plan could provide competitors with commercially sensitive insights related to Nushagak Electric and Telephone Cooperative, Inc.'s operations, service offerings, and costs.

 Identification of any measures taken by the submitting party to prevent unauthorized disclosure.

Nushagak Electric and Telephone Cooperative, Inc. does not make the Plan or any of the information contained therein publically available in any way. The Plan is only made available to

² 5 U.S.C. § 522(b)(4).

¹ 47 C.F.R. § 0.457(d)(2).

Dykema

Ms. Marlene Dortch, Secretary July 1, 2014 Page 3

key employees with a direct need-to-know basis. This production has been completed by outside counsel.

7. Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties.

Nushagak Electric and Telephone Cooperative, Inc. does not make the Plan available to the public and it has not previously allowed disclosure of the Plan to third parties that are not otherwise bound by confidentiality obligations.

8. Justification of the period during which the submitting party asserts that the material should not be available for public disclosure.

The Plan should be treated as confidential for an indefinite period, as Nushagak Electric and Telephone Cooperative, Inc. will always be subject to competition and the competitive harms associated with the disclosure of the Plan.

9. Any other information that the party seeking confidential treatment believes may be useful in assessing whether its request for confidentiality should be granted.

None.

In order to provide adequate protection from public disclosure, Nushagak Electric and Telephone Cooperative, Inc. requests that the Commission strictly limit distribution of the Plan within the Commission on a "need to know" basis and not allow any distribution outside of the Commission. In the event that any person or entity outside of the Commission requests disclosure of the Plan, Nushagak Electric and Telephone Cooperative, Inc. requests that it be so notified immediately so that it can oppose such request or take other action to safeguard its interests as it deems necessary and appropriate.

Please do not hesitate to contact me if you have any questions or I may be of any assistance.

Sincerely,

DYKEMA GOSSETT PLLC

Shannon M. Heim

NUSHAGAK ELECTRIC AND TELEPHONE COOPERATIVE INC. (NETC) FIVE YEAR SERVICE OUALITY IMPROVEMENT PLAN

PREAMBLE

This 5 year improvement plan is a section of the Company's 2014 Annual Report. It is in compliance with § 54.313(a)(1) adopted in the FCC's USF/ICC Transformation Order (11-161). This document also incorporates further clarifications identified in subsequent Reconsideration Orders, as applicable, in effect prior to the filing of the Annual Report.

Nushagak Electric and Telephone Cooperative Inc. (NETC) has carefully developed its improvement plan, concentrating on the delivery and continuation of a robust network which provides, at a minimum, the federally required voice and broadband connectivity as stipulated by regulatory rule. In certain situations (and as noted herein), the plan may also incorporate specific state requirements.

NETC advises that this improvement plan has been carefully crafted, matching measured network deployment, improvement and quality service levels with known financial implications of the Transformation Order upon the company's support cash-flows. The uncertainty of such cash flows being received in the outer-years as a result of current and potential regulatory action on rural rate-of-return carriers has resulted in the Company taking a balanced yet realistic approach.

The environment in which the Company operates remains dynamic, not static. As a result, NETC reserves the opportunity to modify its plan in response to further regulatory decisions as they are adopted, and their implication upon the Company's financial viability in providing the required services and service level quality becomes known.

NETC will re-evaluate this plan on an annual basis. Action, however, may also be taken abruptly on the presented plan for both current and outer years in the event of evolving regulatory conditions and/or changes in technology (vendor)-driven support. All adjustments to the improvement plan in this document will be reflected and explained in subsequent annual reports.

OVERVIEW

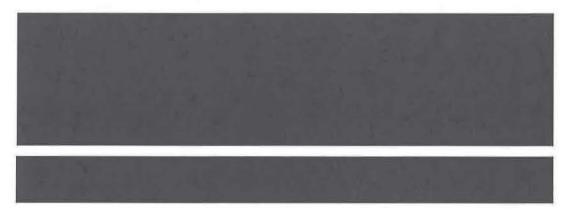

NETC, as an Bligible Telecommunications Carrier (ETC) provides Universal Service supported services to approximately 1692 customers in three exchanges covering approximately 6,336 square miles.

Consistent with Commission requirements, this Service Quality Improvement Plan addresses only NETC's regulated eligible telecommunications carrier operations.\(^{1}\) A detailed description of

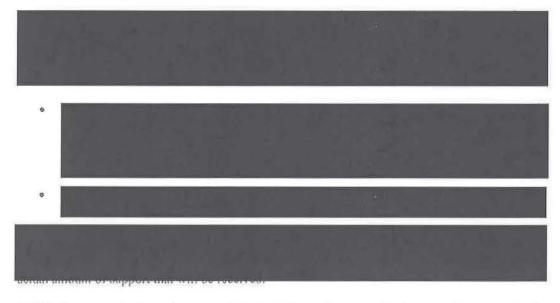

¹Per 47 C.F.R. § 54.314, federal USF support, "will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended." If investments or expenses are for service areas larger than the supported service areas, then allocations of the expenditures are required.

c-tusers/unichael/documents/5-year plantnete 2014 narrative for 5 year plant rev-1 (ks-1) final(1).docx Page 1 of 8

NETC's plans for the provision of the supported services in the five-year period starting with January 2015 is provided herein.

IMPROVEMENT PLANS BY YEAR (2015-2019 inclusive)

NETC is a member/owned cooperative providing telecommunications services as a local exchange carrier. NETC serves the communities of Dillingham, Manokotak, Clarks Point, Ekuk and Portage Creek in Southwest Alaska. The communities are located near Nushagak Bay at the confluence of the Wood and Nushagak Rivers, an inlet of Bristol Bay, an arm of the Bering Sea in the North Pacific. With 3 exchanges, it serves a current population of approximately 2,836, over a geographic area of approximately 6,336 square miles. In general, the service territory is a mixture of rolling tidal lands surrounded by mountains. Located approximately 350 air miles Southwest of Anchorage Alaska. The service territory between Dillingham and South Aleknagik is inter-connected by a secondary state highway. North Aleknagik is accessible via boat and small aircraft in summer or snow machine in the winter. Access to the surrounding villages of Clarks Point, Manokotak, Ekuk and Portage Creek are accessible via aircraft and seasonally via snow machine and/or boat. All goods and services must be either transported to the service area by aircraft or seasonally by ocean barge.

- Manokotak area, Manokotak heights, Sealed Lead acid battery, 600 Ab. 30 hour estimated run time.

Network Interface Devices (NIDs)

Nushagak Electric & Telephone Cooperative, Inc. has 1713 customers with metallic (copper) connections to the Central Office and their NIDs are powered from the Central Office.

Nushagak Electric & Telephone Cooperative, Inc. has 3 customers with non-metallic (fiber optic) connections to the Central Office. These Facilities are equipped with 100% backup diesel generation systems.

Ability to reroute traffic around damaged facilities:

Nushagak Electric & Telephone Cooperative Inc. has built redundant facilities between its exchanges and / or to its connecting company / toll tandem. This redundant facility is in the form of a SONET ring (or other technology) with alternate physical facilities between Nushagak Electric & Telephone Cooperative Inc., AT&T, and GCI, its interconnection to the Public Switched Telephone Network.

Capability to manage traffic spikes resulting from emergency situations

Nushagak Electric & Telephone Cooperative, Inc. has 1716 customers, switching capacity of 250,000 simultaneous calls, and transport capacity for 2,016 simultaneous calls. Nushagak Electric & Telephone Cooperative, Inc. takes no responsibility for the capabilities of interconnected networks to manage traffic spikes resulting from emergency situations, but will continue its best efforts for its networks during such events.

November 21, 2013

Tribal Entity

Nushagak Electric and Telephone Inc. request to Tribal Entities concerning fund pooling mechanisms for communications services.

Dear Tribal Entity Contact:

Nushagak Electric and Telephone Cooperative Inc. (NETC) would like to meet with your organization discuss planning options for fulfilling tribal communications needs in your area.

NETC would like to meet with you when it is convenient for you and your representatives.

If you do not have meeting facilities available NETC will provide a place for us to meet.

If you have any further questions or require additional information please do not hesitate to contact NETC. I can be contacted at 842-6316 or via email at mmegli@nushagak.coop. Additionally, Michael Favors can be contacted at 842-6367 or via email at mfavors@nushagak.coop.

Sincerely,

Mike Megli CEO/GM Nushagak Electric and Telephone Cooperative (NETC) has performed the following items to comply with the Federal Communications Commission requirement for Exchange Telephone Carriers (ETCs) to engage with Tribal entities to assess their communication needs on Tribal lands.

NETC mailed letters on November 25, 2013 to the following Tribal Entities in our service area:

Aleknagik Traditional Council

Curyung Tribal Council

Portage Creek Village Council

Manokotak Village Council

Ekuk Village Council

Clarks Point Village Council

Choggiung and Bristol Bay Native Association were removed from our list. Choggiung informed NETC they were not a Tribal Entity on November 26, 2012. During NETC's meeting with Bristol Bay Native Association (BBNA) on December 4, 2012 it was recommended by BBNA that NETC consult with the Individual Tribal Entities in NETC's serving area.

Aleknagik Traditional Council

NETC has been working with the Aleknagik Traditional Council towards a master easement agreement with Aleknagik Natives Limited. The agreement is in legal review at this time and we expect to finalize the agreement in 2014.

Curyung Tribal Council

Curyung is a recognized tribal entity however NETC has not received any request for services on their lands. There are no schools or anchor institutions for NETC to serve on Curyung lands with the exception of voice and broadband to their offices located in Dillingham.

Portage Creek Village Council

Portage Creek is a village located on the Nushagak River. There is no school, library, etc. The village is currently occupied by one year round family and the remainder of the village is utilized seasonally.

Air traffic or summer boat service is the only access to this village.

Manokotak Village Council

NETC currently provides the copper cable necessary to provide voice and broadband services to the Manokotak School and Health Clinic. NETC is currently in the process of constructing the fiber network necessary to provide terrestrial middle mile connectivity.

Air traffic is the only access to this village.

Ekuk VIllage Council

Ekuk Village located near Clarks Point does not have any full time residents with the exception of a watchman at the cannery located near Ekuk. There is no school, library or health clinic located in Ekuk.

Air traffic is the only access to this village.

Clarks Point Village Council

NETC provides voice services to the Village council office. NETC provides the copper facilities to link the village health clinic to the telemedicine network. The village school was closed in 2012. There is no library in Clarks Point.

Air traffic is the only access to this village.

54.313 Lifeline customers MOU and additional toll charges

Lifeline subscribers receive the same residential service as a regular subscriber, but at a reduced monthly recurring rate. Thus, lifeline subscribers have an unlimited number of local calling minutes. As for toll, lifeline subscribers, similar to every Nushagak Electric & Telephone Cooperative, Inc. subscriber, are free to choose their own toll usage plans through IXCs that serve Nushagak Electric & Telephone Cooperative, Inc.

EXECUTIVE SUMMARY

To assist you in your responsibilities as a member of the Board of Directors, this section summarizes the most significant conclusions reached and issues addressed during our audit of Nushagak Electric and Telephone Cooperative, Inc. for the year ended December 31, 2013.

SIGNIFICANT CONCLUSIONS AND ISSUES

We have completed our audit and issued our report dated March 24, 2014. Based on our work performed:

- We rendered an unmodified opinion on the December 31, 2013 financial statements.
- We have not identified any conditions which we consider to be material weaknesses as
 defined by generally accepted auditing standards. We did, however, identify a
 deficiency in internal control over financial reporting that we consider to be a significant
 deficiency.
- We have not identified any instances which we consider to be material instances of noncompliance with certain provisions of laws, regulations, and contracts.
- We identified instances of noncompliance with reporting requirements of grant agreements during our examination of expenditures of state financial assistance in accordance with the State of Alaska Audit Guide and Compliance Supplement for State Single Audits.
- We received the full cooperation of management and staff throughout the organization and were kept informed as to developments and plans affecting our audit scope.
- No restrictions were placed on the scope of our work.

The following reports include the audited consolidated financial statements and related notes with letters required by RUS and for the Alaska State Single Audit. Also included are communications for the benefit of those charged with governance, as required by professional standards.

To the Board of Directors

Year Ended December 31, 2013

March 24, 2014

To the Board of Directors

Nushagak Electric and Telephone Cooperative, Inc.

Dear Members of the Board:

We have audited the financial statements of Nushagak Electric and Telephone Cooperative, Inc. (the Cooperative) for the year ended December 31, 2013, and have issued our report thereon dated March 24, 2014.

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated October 7, 2013. Professional standards also require that we communicate to you the following information related to our audit.

QUALITATIVE ASPECTS OF ACCOUNTING POLICIES

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Cooperative are described in Note 1 to the December 31, 2013 financial statements. No new accounting policies were adopted and the applications of existing policies were not changed during 2013. We noted no transactions entered into by the Cooperative during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Significant accounting estimates reflected in the financial statements include; the allowance for doubtful accounts receivable, useful lives of property, plant and equipment, and fair value measurements of financial instruments and investments.

During the year ended December 31, 2013, we are not aware of any significant changes in accounting estimates or in management's judgments relating to such estimates. We evaluated the key factors and assumptions used in determining that those estimates are reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures are those related to long term debt, and effects of changes in the regulatory environment on the Cooperative.

The financial statement disclosures are neutral, consistent and clear.

DIFFICULTIES ENCOUNTERED IN PERFORMING THE AUDIT

We encountered no significant difficulties in dealing with management in performing and completing our audit.

CORRECTED AND UNCORRECTED MISSTATEMENTS

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

DISAGREEMENTS WITH MANAGEMENT

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

MANAGEMENT REPRESENTATIONS

We have requested certain representations from management that are included in the management representation letter dated March 24, 2014.

MANAGEMENT CONSULTATION WITH OTHER INDEPENDENT ACCOUNTANTS

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" in certain situations. If a consultation involves application of an accounting principle to the Cooperative's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

OTHER AUDIT FINDINGS OR ISSUES

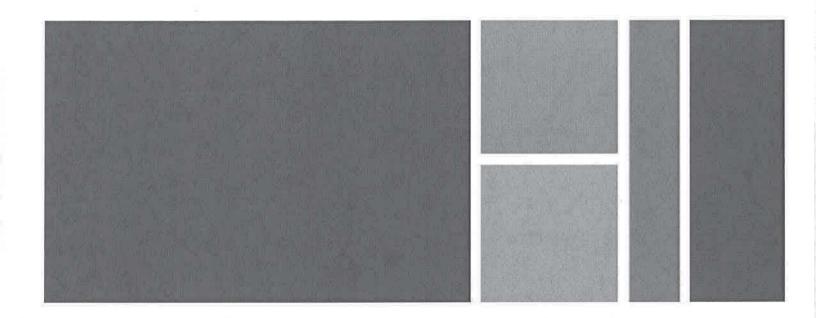

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Cooperative's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the information and use of the Board of Directors, management, and others within the Cooperative and is not intended to be and should not be used by anyone other than these specified parties.

We will be pleased to discuss this report with you further at your convenience.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors Nushagak Electric and Telephone Cooperative, Inc. Dillingham, Alaska

We have audited the accompanying financial statements of Nushagak Electric and Telephone Cooperative, Inc. (the Cooperative), which comprise the balance sheets as of December 31, 2013 and 2012, and the related statements of operations and patronage capital, and cash flows for the years then ended.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Nushagak Electric & Telephone Cooperative, Inc. at December 31, 2013 and 2012, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The combining divisional statements are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

680 HAWTHORNE AVENUE SE, #140, SALEM, OR 97301

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of state financial assistance, as required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued a report dated March 24, 2014, on our consideration of Nushagak Electric & Telephone Cooperative, Inc.'s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Cooperative's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

Organization

Nushagak Electric and Telephone Cooperative, Inc. (the Cooperative) was created effective January 1, 2002 with the merger of Nushagak Electric Cooperative, Inc. and Nushagak Telephone Cooperative, Inc. The Cooperative is an Alaska cooperative corporation providing electric, telecommunications, cable television and internet services within and around the Dillingham, Alaska area.

Basis of Accounting

The Cooperative's financial statements are prepared on the accrual basis of accounting in conformity with the accounting principles generally accepted in the United States of America applicable to regulated enterprises.

Interdivisional Transactions

The operations of the Cooperative are segregated into the electric division, the telephone division, and the cable division, for management and external reporting purposes. Each division has transactions with the other divisions in the normal course of conducting business. For example, the electric division pays the telephone division for telephone service. Because these amounts are not considered material to the financial statements, there have been no eliminations for interdivisional revenues and expenses except for interest on interdivision loans.

Use of Estimates

The Cooperative uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses.

Regulation

The electric division of the Cooperative maintains its accounting records in accordance with the Uniform System of Accounts prescribed by the Federal Energy Regulatory Commission as modified for electric borrowers of the Rural Utilities Service (RUS). The telephone division of the Cooperative maintains its accounting records in accordance with the Uniform System of Accounts, as prescribed by the Federal Communications Commission (FCC). As a result, the application of accounting principles generally accepted in the United States by the Cooperative differs in certain respects from the application by non-regulated entities. Such differences primarily concern the time at which certain items enter in the determination of net margin.

The telephone division of the Cooperative is subject to limited regulation by the FCC and the Regulatory Commission of Alaska (RCA) regarding the provision of telecommunication services. The local exchange operations are exempt from rate regulation by the RCA.

The electric division of the Cooperative must comply with applicable regulatory standards related to generation and transmission.

The Cooperative is subject to normal environmental standards imposed by federal, state, and local environmental laws and regulations. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Liabilities for such expenditures are recorded when it is probable that obligations have been incurred and the cost can be reasonably estimated.

Regulatory and legislative actions, as well as future regulations, could have a significant impact on the Company's future operations and financial condition. See Note 1, National Broadband Plan and FCC Order.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Cooperative considers all cash and short-term investments that are readily convertible to known amounts of cash and that present an insignificant risk of change in value due to changes in interest rates or other factors to be cash equivalents.

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

Note 1 - Summary of Significant Accounting Policies, continued

Cash and Cash Equivalents, continued

The Cooperative maintains its cash in bank deposit accounts that are insured by the Federal Deposit Insurance Corporation (FDIC) up to a limit of \$250,000.

The Cooperative has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

Accounts Receivable

The Cooperative provides an allowance for doubtful accounts that is based on a review of outstanding receivables, historical collection information, and existing economic conditions. Receivables from subscribers are due 30 days after the issuance of the invoice. Receivables from other exchange carriers are typically outstanding from 30 to 60 days before payment is received. Delinquent accounts are charged to uncollectible expense when it is determined that the account will not be collected. Receivables past due more than 90 days are considered delinquent. Delinquent receivables are written off based on individual credit evaluation and specific circumstances of the customer.

Investments in Associated Organizations

Investments in associated organizations are stated at cost.

Fair Value of Financial Instruments

The Cooperative's financial instruments, none of which are held for trading purposes, include cash and cash equivalents, accounts receivable, accounts payable, and notes payable. The Cooperative estimates that the fair value of all of these non-derivative financial instruments at December 31, 2013 and 2012 does not differ materially from the aggregate carrying value of its financial instruments recorded in the accompanying balance sheets.

Fuel, Materials and Supplies Inventory

For the electric division, inventory of fuel, antifreeze, lube oil, and materials are recorded at the lower of weighted average cost or market. For the telephone division, materials and supplies are stated at average cost.

Property, Plant and Equipment

Property, plant, and equipment in service and under construction are stated at cost, including appropriate direct and indirect costs associated with construction. Normal maintenance and repairs are charged to operations when incurred. Renewals and betterments are capitalized. For regulated and non-regulated assets, the Cooperative provides for depreciation on a straight-line basis over the estimated useful lives of the related assets, in accordance with rates consistent with industry standards, which range from 5 to 75 years. In accordance with composite group depreciation methodology, when a portion of the Cooperative's regulated property, plant, and equipment is retired in the ordinary course of business, the gross book value is eliminated from the utility plant accounts and such costs, plus removal expenses, less salvage, are charged to accumulated depreciation and no gain or loss is recognized.

Upon retirement, sale, or other disposition of non-regulated property, plant, and equipment, the cost and accumulated depreciation are removed from the accounts and the resulting gains or losses are included in operations.

Extraordinary maintenance costs incurred by the electric division of the Cooperative are initially deferred and subsequently amortized to operating expenses over periods generally ranging from 18 to 60 months. Utility rates are stabilized at levels intended to fund these maintenance costs as they are amortized.

Contributions in aid of construction for the electric division are credited to the associated cost of construction of property units.

The Cooperative follows the policy of capitalizing interest as a component of the cost of property, plant, and equipment constructed for its own use. The Cooperative uses a weighted-average interest rate based on total long-term debt.

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

Note 1 - Summary of Significant Accounting Policies, continued

Revenue Recognition

The Cooperative's billing for the usage of electricity reflects metered usage through approximately the fifteenth day of the month. The Cooperative estimates and records the revenue earned for the usage from the last billing through the end of the accounting period.

The Cooperative's monthly service fees derived from basic and local telephone service, as well as for cable and internet service, are billed in advance. Advance billings are recorded as a liability or reduction of receivables and subsequently transferred into income in the period earned. Usage sensitive revenues are billed in arrears.

Network Access Revenues

Network access revenue is received under a system of access charges. Access charges represent a methodology by which local telephone companies, including the Cooperative, charge the long-distance carrier for access and interconnection to local facilities. The Cooperative has elected to file access tariffs through the National Exchange Carriers Association (NECA) and the Alaska Exchange Carriers Association (AECA). These access tariffs are subject to approval by the FCC for interstate charges and the Regulatory Commission of Alaska (RCA) for intrastate charges.

When network access revenues have been received pursuant to the settlement and access agreements above, they are then either placed into a common pooling arrangement with other exchange carriers for redistribution or kept by the Cooperative. The redistributions are made according to formulas established by the governing boards of the pools and are generally based upon expenses incurred and investments maintained.

The Cooperative participates in various pooling arrangements with NECA and AECA.

Settlement, access, and pool distribution revenues are recorded when the amounts become determinable. Related expenses are recorded when incurred. Subsequent true-ups and retroactive adjustments, which are generally allowed for a period of 24 months (NECA pool only) after the close of the related calendar year, are recorded in the year in which such adjustments become determinable, based upon studies prepared by outside consultants.

In addition to recoveries from the pools, the Cooperative also receives revenues from the Universal Service High Cost Loop Fund (HCL) and other support mechanisms administered by the Universal Service Administrative Company (USAC). These universal service support revenues are intended to compensate the Cooperative for the high cost of providing service in rural areas. The amount of support received from HCL is based on the number of customers served and the cost of providing service in that area being in excess of the national average cost per loop, as determined by the FCC. The Cooperative also receives funding from state universal service funds. These support revenues are included in the network access revenues in the accompanying financial statements.

National Broadband Plan and FCC Order

In 2010 the FCC issued the National Broadband Plan which outlined a long-term plan to increase broadband penetrations and services throughout the United States of America. The plan further outlined a proposed long-term phase-out of access charges (referred to as Intercarrier Compensation) and moved to support mechanisms based on broadband services rather than the current Universal Service High Cost Loop Fund administered by USAC.

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

Note 1 - Organization and Summary of Significant Accounting Policies, continued

National Broadband Plan and FCC Order, continued

In response to the plan, the FCC on October 27, 2011, approved Report and Order 11-161 (the Order), that begins the process of reforming the universal service and intercarrier compensation (ICC) systems and adopts support for broadband-capable networks as an express universal service principle. The Order further creates the Connect America Fund which will ultimately replace all existing high-cost support mechanisms as well as help facilitate ICC reforms.

The key provisions of the order include:

- · Capping the federal universal service fund at current levels
- Placing limitations on capital and operating spending
- Establishing local rate benchmarks
- · Capping the per-line support amount for the universal service high cost loop fund at \$250 per month
- Phase out of local switching support and the establishment of the CAF for recovery of investment and expenses related to the provision of switching services
- Reforming the ICC system by adopting a plan to transition from access charges to a bill and keep framework. The transition period for rate-of-return carriers such as the Cooperative is approximately 9 years from the date of the order.
- Adoption of a monthly Access Recovery Charge as a transitional recovery mechanism to mitigate the impact of reduced intercarrier revenues

The Order was effective December 29, 2011 and implementation began July 1, 2012. As of the implementation date CAF recovery is calculated based on the frozen fiscal year 2011 interstate switched access revenue requirement, plus certain 2011 intrastate access revenues, and will decline annually by 5% during the transition period.

As of December 31, 2013 the Cooperative is transitioning its local rates and is not subject to the \$250 per line support cap. Furthermore, for the period ended December 31, 2013 the impacts to the Cooperative related to the 5% annual decline in switched access revenues have not been significant.

The overall reform process will take place in phases and will take several years to implement. Furthermore, the Order includes a Further Notice of Proposed Rulemaking. The FCC has issued numerous Orders for Reconsideration and continues to seek comments on various items. As a result, the ultimate outcome of these proceedings and their impact is uncertain at this time.

Excise Tax Refunds

Refunds of Federal communication excise taxes resulting from the Cooperative's status as a tax exempt cooperative are recorded as a direct increase to members' patronage capital accounts.

Patronage Capital

Patronage capital consists of undistributed net margins allocated to individual members and accumulated since inception, less distributions to members. Under the bylaws of the Cooperative, the distribution of such patronage capital to members of the Cooperative is at the discretion of the Board of Directors, and may be restricted under covenants of RUS mortgage notes.

Other Equities

Other equities consist of unclaimed distributions of patronage capital credits to members transferred to the Cooperative under the laws of the State of Alaska.

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

Note 1 - Summary of Significant Accounting Policies, continued

Income Taxes

The Cooperative has been granted an exemption from Federal income taxes under Section 501(c)(12) of the Internal Revenue Code, except for "unrelated" business income. However, in any year for which greater than 15% of gross revenue is derived from nonmember services, the Cooperative becomes a taxable cooperative. The Cooperative was exempt from income taxes in 2013 and 2012. The Cooperative is also exempt from state income taxes as a gross revenue tax on cooperatives overrides the filling of state income tax.

In years when the Cooperative is taxable, federal income taxes payable by taxable cooperatives are computed differently from taxes payable by other corporations, primarily because cooperatives are allowed to deduct margins allocated to patrons within 8½ months after the end of each taxable year.

The Cooperative follows accounting standards generally accepted in the United States of America related to the recognition of uncertain tax positions. The Cooperative recognizes accrued interest and penalties associated with uncertain tax positions as part of the income tax provision, when applicable. There were no amounts accrued in the financial statements related to uncertain tax positions in 2013 or 2012. The Cooperative files income tax returns in the United States, state and local jurisdictions. With few exceptions, the Cooperative is no longer subject to U.S. Federal, state or local tax examination by tax authorities for years before 2009.

Subsequent Events

The Cooperative has evaluated subsequent events through March 24, 2014, the date on which the financial statements were available to be issued.

Total Property, Plant and Equipr	ment in Service	\$	L \$

In 2009, the Cooperative was awarded a \$4,031,500 grant from the Alaska Energy Authority (AEA), a public corporation of the State of Alaska, under the Renewable Energy Fund. The grant funds are to be used for feasibility studies, permitting, and engineering costs related to a potential hydropower project. During the year ended December 31, 2013, the Cooperative expended \$472,600 in grant funds (\$741,448 in 2012) bringing cumulative expenditures of grant funding to \$1,831,626. Reimbursements received for expenditures of state grant funds during the year ended December 31, 2013 were \$668,547 (\$984,178 in 2012), bringing the total reimbursements for the grant to \$1,809,617. Grant expenditures related to the year ended December 31, 2013, and requested subsequent to year end were \$22,009 (\$217,956 at December 31, 2012).

In 2010, the Cooperative was awarded a \$125,000 grant from the AEA under the Denali Commission. The grant funds are to be used for environmental and feasibility studies, permitting, and conceptual engineering related to a potential wind generation project. Project costs totaled \$97,686 as of December 31, 2013 (\$88,438 as of December 31, 2012). Grant expenditures related to the year ended December 31, 2013 and requested subsequent to year end were \$9,248 (none at December 31, 2012).

In 2012, the Cooperative was awarded a \$1,000,000 grant from the Alaska Department of Commerce, Community, and Economic Development, Division of Community and Regional Affairs. The grant funds are to be used for the purchase and construction of an 850,000 gallon fuel tank within the Cooperative's existing fuel tank farm. During the year ended December 31, 2013, the Cooperative expended \$882,489 in grant funds (\$117,511 in 2012) bringing cumulative expenditures of grant funding to \$1,000,000. Reimbursements received for expenditures of state grant funds during the year ended December 31, 2013 were \$1,000,000 (none in 2012).

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

Note 4 - Deferred Charges

Deferred charges, net of accumulated amortization, relate to the electric division and consist of the following at December 31:

	2013	2012
Deferred Charges		
Overhaul unit no. 11	\$	\$ -
Overhaul unit no. 12		
Overhaul unit no. 13

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

Note 8 - Pension and Health and Welfare Plans, continued

In the Plan, a "zone status" determination is not required and therefore, not determined under the Pension Protection Act (PPA) of 2006. In addition, the accumulated benefit obligations of plan assets are not determined or allocated separately by individual employer. In total, the NRECA RSP was 100 percent funded at January 1, 2012 based on the PPA funding target and PPA actuarial value of assets on that date. Information for the Plan year beginning January 1, 2013 is not available at the time of this audit report.

Because the provisions of PPA do not apply to the NRECA RSP, funding improvement plans and surcharges are not applicable and have not been applied. Future contribution requirements are determined each year as part of the actuarial valuation of the NRECA RSP and may change as a result of NRECA RSP experience. There is no collective bargaining agreement that affects future contribution requirements.

The Cooperative participates in multi-employer plans through NRECA that provide all employees with health care and other welfare benefits during the employees' working lives. Amounts charged to benefit cost and contributed to the health and welfare plan for those benefits totaled \$712,917 and \$659,283, respectively, for the years ended December 31, 2013 and 2012.

In addition, the Cooperative also participates in a contributory, multi-employer, defined contribution savings (401k) plan (the Savings Plan) sponsored by NRECA. This program provides a tax deferral of current employee earnings to a future period. All employees meeting the Savings Plan's eligibility requirements are eligible to participate if they have completed one month of service, and may contribute up to 25% of their salary. The employer does not contribute to this plan. All participants are immediately vested in their contributions.

Basis of Presentation

The accompanying Schedule of State Financial Assistance includes the grant activity of Nushagak Electric & Telephone Cooperative, Inc. and is presented on the accrual basis of accounting. The information is presented in accordance with the requirements of the State of Alaska Audit guide and Compliance Supplement for State Single Audits.

REPORTS AND SCHEDULES REQUIRED BY STATE OF ALASKA
AUDIT GUIDE AND COMPLIANCE SUPPLEMENT FOR
STATE SINGLE AUDITS, AND OTHER REQUIRED REPORTS

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT

To the Board of Directors

Nushagak Electric and Telephone Cooperative, Inc.

Dillingham, Alaska

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Nushagak Electric & Telephone Cooperative, Inc. (the Cooperative), which comprise the balance sheets as of December 31, 2013 and 2012 and the related statements of operations and patronage capital, and cash flows for the years ended, and the related notes to the financial statements, and have issued our report thereon dated March 24, 2014.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audits, we considered the Cooperative's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Cooperative's internal control. Accordingly, we do not express an opinion on the effectiveness of the Cooperative's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, as described below, to be a significant deficiency in internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be significant deficiencies: 2013-1 and 2013-2.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the Cooperative's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters which are required to be reported under *Government Auditing Standards*, and which are described in the accompanying schedule of findings and questioned costs as item 2013-2,

THE COOPERATIVE'S RESPONSE TO FINDINGS

The Cooperatives response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The Cooperative's response was not subjected to the auditing procedures applied in the audit of the financial statements and accordingly, we express no opinion on it.

PURPOSE OF THIS REPORT

The purpose of this report is sofely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

AKTLLP

Salem, Oregon March 24, 2014

REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE STATE OF ALASKA AUDIT GUIDE AND COMPLIANCE SUPPLEMENT FOR STATE SINGLE AUDITS

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Nushagak Electric and Telephone Cooperative, Inc. Dillingham, Alaska

REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROGRAM

We have audited Nushagak Electric and Telephone Cooperative's (the Cooperative's) compliance requirements described in the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* that could have a direct and material effect on the Cooperative's major state programs for the year ended December 31, 2013. The Cooperative's major state programs are identified in the summary of auditor's results section of the accompanying schedule of Alaska financial assistance.

MANAGEMENT'S RESPONSIBILITY

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to Alaska state programs.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on compliance for each of the Cooperative's major state programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and the State of Alaska Audit Guide and Compliance Supplement for State Single Audits. Those standards and the State of Alaska Audit Guide and Compliance Supplement for State Single Audits require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Cooperative's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However our audit does not provide a legal determination of the Cooperative's compliance.

OPINION ON EACH MAJOR STATE PROGRAM

In our opinion, the Cooperative complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended December 31, 2013.

OTHER MATTERS

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the State of Alaska Audit Guide and Compliance Supplement for State Single Audits and which are described in the accompanying schedule of findings and questioned costs as items 2013-1 and 2013-2. Our opinion on each major state program is not modified with respect to these matters.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Management of the Cooperative is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Cooperative's internal control over compliance with the requirements that could have a direct and material effect on a major state program to determine the auditing

680 HAWTHORNE AVENUE SE, #140, SALEM, UR 9730)

procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the State of Alaska Audit Guide and Compliance Supplement for State Single Audits, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Cooperative's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2013-1, and 2013-2 to be significant deficiencies.

The Cooperative's response to the internal control over compliance findings identified in our audit are described in the accompanying corrective action plan. The Cooperative's response was not subjected to the auditing procedures applied in the audit of compliance and accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State of Alaska Guide and Compliance Supplement for State Single Audits*. Accordingly, this report is not suitable for any other purpose.

REPORT ON SCHEDULE OF STATE FINANCIAL ASSISTANCE REQUIRED BY THE STATE OF ALASKA AUDIT GUIDE AND COMPLIANCE SUPPLEMENT FOR STATE SINGLE AUDITS

We have audited the financial statements of the Cooperative as of and for the year ended December 31, 2013, and have issued our report thereon dated March 24, 2014, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying scheduled of state financial assistance is presented for purposes of additional analysis as required by the State of Alaska Audit Guide and Compliance Supplement for State Single Audits and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of state financial assistances is fairly stated in all material respects in relation to the financial statements as a whole.

Deadline for Submission of State Single Audit - All Major Programs

Schedule of Findings and Questioned Costs

Year Ended December 31, 2013

Criteria 2 AAC 45.010(b) states an entity that expends a cumulative total of \$500,000 or more shall

submit an audit report for the audit period by the earlier of 30 days after the entity receives its audit report for the audit period or nine months after the end of the audit period, or a later

date agreed upon in writing and advance of the date in this section.

Condition The Cooperative did not submit their audit within 30 days of the issuance of their December

31, 2012 audit report.

Question Costs None noted.

Context Due to turnover of key staff, the Cooperative was unfamiliar with the single audit submission

process.

Effect The Cooperative is not in compliance with 2 AAC 45.010 (b)(1).

Cause Due to the turnover of the primary contact with AEA, the filing process was not completed

within the 30 day requirement.

Recommendation The Cooperative should implement a system to ensure annual reporting is achieved timely.

Corrective Action Plan

Financial Statement Findings

Finding: 2013-1 Financial Reporting

Name of Contact Person: Mike Megli, CEO

Corrective Action: Management has evaluated the situation and has determined that it is cost

prohibitive to internally maintain the level of expertise to draft the financial statements and supporting notes, and as such will continue to outsource these

matters to external parties.

State Award Findings and Questioned Costs

Finding: 2013-1 Financial Reporting

Name of Contact Person: Mike Megli, CEO

Corrective Action: See above.

Finding: 2013-2 Deadline for Submission of State Single Audit

Name of Contact Person: Michael Favors, Telecom Operations Manager

Corrective Action: The Cooperative has worked closely with the AEA to ensure reporting is

completed and submitted timely.

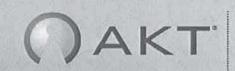

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Finding 2012-1 Financial Reporting

This finding is still unresolved. It is repeated as finding 2013-1 for the year ended December 31, 2013.

Finding 2012-2 Quarterly Progress and Financial Reports

This finding has been resolved. Progress reports are submitted when due, even if there is no financial activity during the reporting period.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH ASPECTS OF CONTRACTUAL AGREEMENTS AND REGULATORY REQUIREMENTS FOR TELECOMMUNICATION BORROWERS

To the Board of Directors
Nushagak Electric and Telephone Cooperative, Inc.
Dillingham, Alaska

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Nushagak Electric Telephone Cooperative, Inc., (the Cooperative), which comprise the balance sheet as of December 31, 2013, and the related statements of operations and patronage capital, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our thereon report dated March 24, 2014. In accordance with *Government Auditing Standards* we have also issued our report dated March 24, 2014, on our consideration of the Cooperative's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. No reports other than the reports referred to above have been furnished to management.

In connection with our audit, nothing came to our attention that caused us to believe that the Cooperative failed to comply with the terms, covenants, provisions, or conditions of their loan, grant, and security instruments as set forth in 7 CFR Part 1773, Policy on Audits of Rural Utilities Service Borrowers, §1773.33 and clarified in the RUS policy memorandum dated March 24, 2014, insofar as they relate to accounting matters as enumerated below. However, our audit was not directed primarily toward obtaining knowledge of noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Cooperative's noncompliance with the above-referenced terms, covenants, provisions, or conditions of the contractual agreements and regulatory requirements, insofar as they relate to accounting matters. In connection with our audit, except as noted below, we noted no matters regarding the Cooperative's accounting and records to indicate that the Cooperative did not:

- Maintain adequate and effective accounting procedures;
- Utilize adequate and fair methods for accumulating and recording labor, material, and overhead costs, and the distribution of these costs to construction, retirement, and maintenance or other expense accounts;
- Reconcile continuing property records to the controlling general ledger plant accounts. The Cooperative's subsidiary plant records for central office and cable and wire have not been updated to agree with the general ledger. The Cooperative is in the process of updating these records to ensure the balances agree to the general ledger going forward;
- Clear construction accounts and accrue depreciation on completed construction;
- Record and properly price the retirement of plant;
- Seek approval of the sale, lease or transfer of capital assets and disposition of proceeds for the sale or lease of plant, material, or scrap;
- Maintain adequate control over materials and supplies;
- Prepare accurate and timely Financial and Operating Reports;

- Obtain written RUS approval to enter into any contract for the management, operation, or maintenance of the borrower's system if the contract covers all or substantially all of the telecommunication or electric system;
- Disclose material related party transactions in the financial statements, in accordance with requirements for related parties in generally accepted accounting principles;
- Record depreciation in accordance with RUS requirements (See RUS Bulletin 183-1, Depreciation Rates and Procedures);
- Comply with the requirements for the detailed schedule of deferred debits; and
- Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a
 whole. The detailed schedule of investments required by 7CFR 1773.33(i) is omitted as the Cooperative
 does not have investments in affiliated or subsidiary companies.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole and the detailed schedule of deferred debits and deferred credits required by 7 CFR 1773.33(h), provided below, is presented for purpose of additional analysis and is not a required part of the basic financial statements. This information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Deferred debits at December 31, 2013 relate to the electric division and consist of the following:

Overhaul of generator no. 11	\$ 49,008
Overhaul of generator no. 12	26,683
Overhaul of generator no. 13	92,592
Overhaul of generator no. 14	47,303
Overhaul of generator no. 15	61,356
Air quality permits program	108,355
Other	_74,968
Total deferred charges	\$_460,265

The Cooperative had no deferred credits at December 31, 2013.

This report is intended solely for the information and use of the Board of Directors, management, and the Rural Utilities Service and supplemental lenders, and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.
